

Annual Report 2025

Acme Industries sp. z o.o., ul. Kwiatowa 7, 61-001 Poznań · NIP 7792451234 · directors' report, March 2026

Chief executive's statement

We closed 2025 with revenue of PLN 48.6 million against PLN 42.1 million a year earlier, a rise of 15.4%. Most of the growth came from racking sales and from export markets, where we began working with three new distributors.

The most consequential decision of the year was commissioning our own paint line, which cut the lead time on powder-coated racking from 28 to 14 working days.

Marta Zielińska, Chief Executive Officer

Financial results

Measure	2025	2024	Change
Revenue	PLN 48,600,000	PLN 42,100,000	+15.4%
EBITDA	PLN 6,900,000	PLN 5,100,000	+35.3%
EBITDA margin	14.2%	12.1%	+2.1 pp
Headcount at year end	214 people	187 people	+27 people
Export share of revenue	22%	17%	+5 pp

Revenue by segment

Segment	Revenue 2025	Share
Racking	PLN 27,300,000	56.2%
Pallet trucks	PLN 15,100,000	31.1%
Accessories	PLN 3,800,000	7.8%
Service	PLN 2,400,000	4.9%
Total	PLN 48,600,000	100.0%

The service segment is the smallest and the fastest growing: customers on an active service agreement rose from 41 to 68. Service agreements are recurring revenue and a sales priority for 2026.

Markets and customers

Exports accounted for 22% of revenue. The main markets are Germany, the Czech Republic and Lithuania. The largest single customer accounted for 9.4% of revenue — we hold to the board's rule that no one customer exceeds 10%.

Capital expenditure

Capital expenditure in 2025 was PLN 3.1 million (a paint line at the Poznań plant).

For 2026 we plan to open a regional warehouse in Gdańsk on 1 June 2026, with a budget of PLN 2,400,000, and to recruit 12 people to run it.

Sites

Code	Location	Address	Status
M1	Poznań	ul. Kwiatowa 7	operating
M2	Wrocław	ul. Graniczna 112	operating
M3	Gdańsk	ul. Portowa 4	opens 1 June 2026

Outlook for 2026

The revenue target for 2026 is PLN 55 million, with exports at 26%. The target assumes the 4.5% list price increase from 1 April 2026 and the Gdańsk warehouse fully operational in the second half of the year.

The principal risk remains the availability of components for electric pallet trucks, where the manufacturer quotes 35 working days.
