

Employee Handbook 2026

Acme Industries sp. z o.o., ul. Kwiatowa 7, 61-001 Poznań · applies to every employee · last updated 1 March 2026

This handbook collects the rules that apply to every Acme Industries employee. It is maintained by the HR department. Where it is silent, the Polish Labour Code applies.

1. Working time

Standard working time is 8 hours a day and 40 hours a week, Monday to Friday. Core hours, when everyone is expected to be reachable, are 9:00 to 15:00. Overtime is approved in advance by the line manager and is compensated with time off at a 1:1 ratio within the same settlement period, or paid according to the Labour Code.

2. Remote work

Office-based employees may work remotely for up to 12 days per calendar month. Requests are submitted in Workday at least 3 working days in advance and the manager answers within 24 hours. Warehouse and production roles are excluded.

A monthly allowance of PLN 180 covers electricity and internet costs for employees who work remotely. It is paid together with the monthly salary.

3. Leave

6. Onboarding

New joiners receive a laptop, an access badge and a company email account on day one; IT creates the account no later than the day before the start date. Health and safety training takes 4 hours and GDPR training 2 hours, both in the first week. Every new joiner is assigned a buddy for the first 3 months, meeting at least weekly. The probation period is 3 months and the summary conversation takes place in week 11.

7. Code of conduct and whistleblowing

Acme Industries does not tolerate harassment, discrimination or any form of bribery. Gifts from contractors above PLN 200 in value must be reported to the compliance officer and are recorded in the gift register.

Concerns can be reported anonymously through the whistleblowing channel at signalista.acme-industries.pl. Reports are acknowledged within 7 days and resolved within 3 months. Retaliation against a person who reports in good faith is a serious breach of employee duties.

8. Information security

- company data is stored in company systems only — no private cloud drives,
- laptops are encrypted and screens lock after 5 minutes of inactivity,
- passwords are kept in the company password manager and never shared,
- a lost device is reported to IT within 24 hours,
- customer data leaves the company only under a signed data processing agreement.
